

VISWA S

Internet of Things (IoT) Student

✉ viswa.s.ciet@gmail.com ☎ +91 8524807757 🌐 github.com/viswasciet-svg 🔗 leetcode.com/problemset

Summary

Aspiring Electronics and Communication Engineering student with a strong foundation in Internet of Things (IoT), embedded systems, programming, and sensor-based technologies. Skilled in developing IoT applications using microcontrollers, sensors, and communication protocols to solve real-world problems through smart and connected systems.

Education

B.E Electronics and Communication Engineering, 2024 – 2028
COIMBATORE INSTITUTE OF ENGINEERING AND TECHNOLOGY

- CGPA: 8 (Till Semester IV)
- Sri Venkateshwara Matric Higher Secondary School-HSC: 90%
- Sri Venkateshwara Matric Higher Secondary School-SSLC: 90%

Professional Experience

EMBEDDED SYSTEMS & IoT(Intership)

AREA OF INTEREST

Embedded C Programming

IoT Things

Technical Skills

Programming Languages

C,Python

IoT & Embedded Technologies

Basics of Internet of Things (IoT),Embedded C

Web Technologies

HTML, CSS

Databases

MongoDB

Tools & Platforms

Arduino IDE,Git, GitHub, VS Code,Claude,CursorAI

Soft Skills

Problem Solving, Teamwork, Communication, Time Management

Projects

Smart Home Automation System

Technologies: Embedded C, Arduino, Relay Module, Bluetooth (HC-05)

- Developed a home automation system to control lights and fans using a mobile application.
- Programmed the microcontroller in Embedded C for real-time device control.

Smart Attendance Management System

Technologies: IoT, ESP32, RFID, Firebase, HTML, CSS, JavaScript

- Developed a cloud-based attendance system using RFID and ESP32.
- Stored attendance records in a cloud database and displayed reports through a web dashboard.

Automatic Street Light Controller

Technologies: Embedded C, Arduino, LDR Sensor

- Built an automatic street lighting system using an LDR sensor to reduce power consumption.
- Implemented day/night detection using Embedded C.

Certifications

- EMBEDDED C
